GENTLEMEN, ENTER OUR APOTHECARY. AUTUMN'S LION-HEARTED AURAS EMIT COLOGNES WITH GUSTO. EMBERS, COURTESY ROUGE BUNNY ROUGE, SPRINKLES pink pepper, nutmeg and clove top notes on smoldering spices, hot and cold. DYPTIQUE blends sandalwood, rosewood and underpinned dry cedar to lend a woody and balanced bouquet inspired by Indochina. Crave maritime zest and smoky ambers? Touting Mediterranean mystique and earthy volcanic notes, BVLGARI conjures fiery Indonesian patchouli, frankincense and traces of orange blossom from Tunisian neroli to air elegance. Invigorating and aromatic, electric mint, sweet pineapple *cœur* and cistus, a blooming evergreen, exude classic freshness in HUGO BOSS. PRADA, too,

seizes the beauty of luxurious sailboats in a richly nuanced and sublime scent: top notes, a facet of lavender and bitter orange citrus; core, clary sage and spearmint essence; base, forest-y ambrettes for agile sensuality. And TOM FORD's seductive private blend infuses cool black coriander with orange flower and sage for a masculine duet that captures the idyll of the Italian Riviera. Take a whiff. ■
