Rouge Bunny Rouge Adds Spring Blush to Cheeks

2 With the spring season just around the corner (hopefully) Rouge Bunny Rouge has introduced a collection of natural beauty-enhancing cheek powders and creams. The shades provide just a touch of color for a natural yet amplified look, and are infused with skin care ingredients. Blush Wand Cheeks in Bloom (\$29), in a handy, portable, no-mess stick format, adds a sheer natural color in one of four shades—and in a pinch, can also add a rosy flush to lips. Original Skin Blush for Love of Roses (\$28), available in five shades, melts into skin for a luminous glow. Among the active ingredients is Uhaloa, from Hawaii, said to produce a long-term brightening effect when applied.
